

HOSE FLOATS >>

Flexitec Hose Solutions offers a patented Hose Float to aid the buoyancy requirements of your hose.

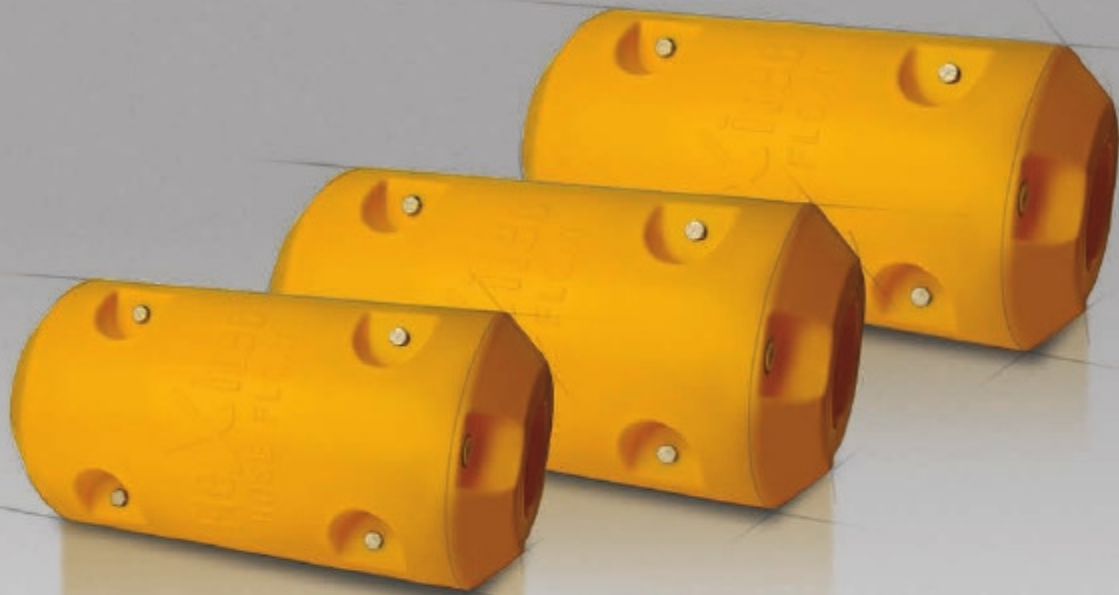

The patented design allows the assembly procedure to be completed with ease. The colour is a UV balanced high visibility yellow. Flexitec can also supply other colours where requested and offers the option to foam fill the hose floats if required. These hose floats can be used as buoyancy aids within other areas where the floatation of hoses, pipe or tube is required.

HOSE FLOATS >>

Hose float part numbers	ID	Length	Dry Weight	Reserve Buoyancy
FHF-150	150mm	900mm	14kg	120kg
FHF-125	125mm	600mm	6.1kg	28kg
FHF-080	80mm	580mm	5.7kg	26kg

Hose floats are a high visibility yellow colour and are UV stabilised. Flexitec can also supply other colours where requested. We supply optional packing strips to accommodate a range of different hose outside diameters.

All hose floats are supplied with assembly Instructions and a galvanised fixing kit is offered as standard. A 316 stainless steel fixing kit is also optional.
