

Sunflex is offering the Hose Floats to aid the buoyancy requirements of your hose.

This design allows the assembly procedure to be completed with ease. The colour is a UV balanced high visibility yellow. These hose floats can be used as buoyancy aids within other areas where the floatation of hoses, pipe or tube is required.

Hose float Part number	Hose float ID	Hose float OD	Length	Dry Weight	For Hose OD	Reserve Buoyancy
FHF-75	93mm	300mm	580mm	6.5kg	93mm	26kg
FHF-100	125mm	300mm	580mm	6.5kg	125mm	26kg
FHF-125	156mm	300mm	900mm	16kg	156mm	84kg

Hose float accessories:

Rubber bush : Thickness 15mm and Length 300mm

Hose floats are high visibility yellow colour and are UV stabilised. Sunflex can also supply other colours where requested. We supply optional packing strips to accommodate a range of different hose outside diameters.

All hose floats are supplied with assembly Instructions and a galvanised fixing kit is offered as standard. A 316 stainless steel fixing kit is also optional.
